WiiM Ultra

Digital Hub for Your Music

The WiiM Ultra is WiiM's flagship music streamer and a central digital hub for your audio ecosystem, boasting audiophile-grade components and build-quality alongside rich audio connections and a vibrant 3.5" full-color touchscreen. It offers Hi-Res streaming capabilities, advanced room correction, and smart home integration to enhance your existing setup, whether it be powered speakers or amplifiers. Additionally, it seamlessly connects with a wide range of devices including turntables, TVs, headphones, AV receivers, subwoofers, smart speakers, Bluetooth headsets, and more, providing a comprehensive and versatile audio solution.

Get ready for a musical journey with unparalleled convenience and fidelity!
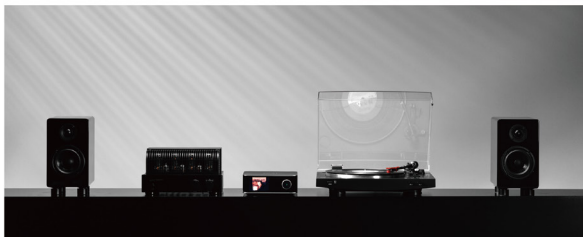

WiiM Ultra
Audio streamer + Display

- **High-performance music streamer** with Premium 32-bit/384kHz ES9038Q2M SABRE DAC

- **A rich selection of audio inputs and outputs,** including HDMI ARC, Line, Phono, and Optical Inputs, along with Line, Optical, Coaxial, USB, Subwoofer, and dedicated Headphone Outputs

- **Latest Wi-Fi 6E and BT 5.3** with two antennas offering rock-solid Bluetooth or Wi-Fi audio streaming

- **Touchscreen Display,** Elegant aluminum case with 3.5" vibrant touchscreen display covered with glass

- **Built-in room correction** takes precise acoustic measurements of your room, creating customized correction for your speakers and subwoofer

- **Stream Hi-Res music** with bit-perfect digital output or high-fidelity analog audio (SNR>120dB, THD+N<0.0002%)

- **Gapless playback of Hi-Res music** up to 24-bit/192 kHz using SPDIF, Coax, Line, and Headphone output.

⋮ WiiM Amp Pro

The WiiM Amp Pro is our second-generation streaming amplifier, distinguished by its exceptional product design, audio quality, wireless and audio connectivity, performance, and functionality. It delivers 60W per channel power for 8 ohms, and 120W per channel power for 4 ohms. Supporting all major streaming services and protocols, along with Dolby Digital Audio, it incorporates the latest Wi-Fi 6E and BT 5.3 including LE Audio with two antennas, offering rock solid wireless audio streaming.
WiiM Amp Pro
Amplifier + Audio Streamer

Moreover, by employing premium components such as the ESS ES9038Q2M Audio DAC, TI TPA3255 Amplifier, and OP AMP components and sophisticated circuit design, it achieves an SNR of 118 dB (A-weighted) and THD+N of -101dB at 5W across a frequency range of 44.1k to 192k, setting a high standard for audio fidelity. Functioning as an all-in-one device, it seamlessly integrates the streamer and speaker amplifier into one unit, compatible with your existing passive speakers such as bookshelf, ceiling, and floor-standing speakers.

Furthermore, it can be connected to various audio devices including turntables, MP3 players, TVs, or projectors, enriching the audio quality and listening experience across these devices.

Once the WiiM Amp Pro is connected to your cherished classic passive speakers, your immersive cinematic TV setup, or even your vintage record player, a world of musical possibilities unfolds before you. Effortlessly stream your treasured music collection directly from your preferred music application, whether it's through the intuitive WiiM Home App or via hands-free voice commands using Alexa, Google Assistant, or Siri, all while reveling in the utmost sound fidelity available.

WiiM Amp

WiiM Amp is a compact all-in-one streaming amplifier housed in a sleek aluminum casing crafted to refine how you experience music, movies, and more. WiiM Amp combines power, versatility, and simplicity like never before. Whether you're an audiophile or a home theater enthusiast, WiiM Amp delivers exceptional sound quality, reliable connectivity, and intuitive control. With support for popular music streaming services, voice assistants like Alexa, Siri, and Google, and automatic software updates, the WiiM Amp keeps getting smarter. Elevate your audio experience with WiiM Amp and unlock a world of immersive sound tailored to your unique preferences.

# Stream **Elegance,** Amplify **Brilliance**

## WiiM Amp
Amplifier + Audio Streamer

- **Transform your passive speakers** into smart audio powerhouses with the WiiM Amp. It packs 60 Watts per channel at 8 ohms, and a whopping 120 Watts per channel at 4 ohms. You can connect Whether you've got floor-standing, architectural, outdoor, or bookshelf speakers. Seamlessly connect your TV or turntable to enjoy unparalleled audio fidelity that will elevate your listening experience.

- **Elevate your entertainment experience** effortlessly with the WiiM Amp's HDMI ARC port. Plug in your TV and immerse yourself in rich stereo sound for shows, movies, and video games. Add a powered subwoofer to take your audio to cinematic levels. With minimal setup required, the WiiM Amp offers a seamlessly integrated AV system that turns your living room into a home theater paradise.

- **Effortless Multiroom Audio** seamlessly build a unified multiroom sound system with your current AirPlay 2 speakers, Amazon Echo, Google Home, and other WiiM branded devices. Easily fill every room with your favorite tunes.

- **High-Resolution Audio, Gapless Playback** Stream crystal-clear music up to 24-bit/192 kHz music. Enjoy music without interruptions and experience top-tier sound quality. It's compatible with high-res platforms like Amazon Music Ultra HD, TIDAL, Qobuz, Roon Ready and your own music library.

WiiM Pro Plus

The WiiM Pro Plus is an upgrade from the WiiM Pro audio streamer, boasting key enhancements such as the latest generation AKM 4493SEQ DAC and the TI Burr-Brown Audio PCM1861 ADC, which facilitates the conversion of analog sounds from devices like record players or TVs into high-fidelity digital format. With an Ultra-low Noise Clock, Power, and Circuit Design ensuring less than -110dB THD+N performance for analog audio output, unwanted noise or distortion is effectively minimized. Seamlessly connecting to WiFi, Ethernet, RCA, TOSLINK, or Coax outputs streamlines setup, while compatibility with voice assistants like Siri, Alexa, and Google allows for effortless music management. Supporting a wide array of services including AirPlay 2, Alexa Casting, Spotify Connect, TIDAL Connect, Roon Ready, Qobuz, Amazon Music, Deezer, TuneIn, iHeartRadio, and more, alongside Chromecast Audio functionality for direct casting from Chromecast-enabled apps, the WiiM Pro Plus ensures unparalleled versatility and performance in audio streaming.
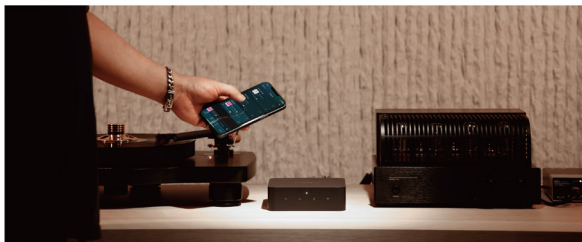

Hi-Res Audiophile-Grade
Music Streamer

WiiM Pro Plus
Audio Streamer + Premium DAC/ADC

- **Premium AKM HiFi DAC** WiiM Pro Plus features the latest generation AKM 4493SEQ DAC. This high-precision, low-jitter DAC supports audio up to 768 kHz/32-bit, boasting an impressive 120 dB (A-wt) SNR and -110dB THD+N (1 kHz)

- **AirPlay 2 Receiver and Chromecast Audio** - WiiM Pro Plus turns your stereo into an AirPlay2 - enabled speaker to stream the music you love from iOS and Mac devices or stream TV audio from Apple TV. Chromecast lets you stream music, TV audio, radio station, podcasts, and local content from hundreds of Chromecast-enabled apps to one or multiple audio devices simultaneously.

- **Gapless Playback Hi-Res 192 kHz, 24-bit Music** - Stream up to 24-bit/192 kHz music wirelessly on its digital and analog output. It can play your music gaplessly and provides bit perfect output via its digital optical or Coax output.

WiiM Pro

The WiiM Pro is a versatile audio streamer. It turns any analog audio setup into a smart, connected system using Wi-Fi or Ethernet, allowing you to modernize their equipment. With support for up to 24-bit/192 kHz audio output, it delivers studio-quality sound. The built-in TI DAC ensures excellent analog audio with clear sound and minimal distortion. It offers multiple connectivity options, including WiFi, Ethernet, RCA, TOSLINK, and Coax outputs. The WiiM Pro supports popular features like AirPlay 2, Alexa Casting, Spotify Connect, TIDAL Connect, Roon Ready, and popular streaming services like Spotify, TIDAL, Amazon Music, and Chromecast Audio, Google Home, Homepod, Siri, and Alexa capability.
The Versatile Audiophile-Grade
Music Streamer

WiiM Pro
Audio Streamer

- **AirPlay 2 Receiver and Chromecast Audio** - WiiM Pro turns your stereo into an AirPlay2 - enabled speaker to stream the music you love from iOS and Mac devices or stream TV audio from Apple TV. Chromecast lets you stream music, TV audio, radio station, podcast and local content from hundreds Chromecast-enabled apps to one or multiple audio devices simultaneously.

- **Gapless Playback Hi-Res 192 kHz, 24-bit Music** - Stream up to 24-bit/192 kHz music wirelessly on its digital and analog output. It can play your music gaplessly and provides bit perfect output via its digital optical or Coax output.

- **Spotify Connect, TIDAL Connect & Amazon Music Casting** - Stream music directly from Spotify, TIDAL, or Amazon Music app using Spotify Connect, TIDAL Connect, or Alexa. It gives much higher audio quality and longer work range than the traditional Bluetooth or AirPlay 2 receiver and liberates your mobile device for other tasks.

- **Works With Alexa, Google Voice & Siri** - WiiM Pro works with Alexa, Google and Siri Voice Assistants. Use your voice in your phone, HomePod, Echo or Google Home to control music selection, volume, and playback.

- **Seamless Multiroom Streaming** - Works with AirPlay 2, Chromecast, Amazon Alexa, or our proprietary multiroom function. Create groups with other AirPlay 2, Google Home, or Alexa devices like Echo and HomePod, or link multiple WiiM devices for synchronized playback on multiple audio devices simultaneously. You can also transmit SPDIF-in or Line-In audio to AirPlay-enabled devices.

WiiM Mini

Hi-Res AUDIO

The WiiM Mini is the ultimate audio streamer, offering AirPlay 2, DLNA, Spotify Connect, TIDAL Connect, Hi-Res lossless audio, Alexa integration, and multiroom audio support. It transforms your existing stereo setup into a smart system, giving you full control over your music from multiple sources. Whether you prefer to use your favorite music app, the intuitive WiiM Home app, or voice assistants like Alexa or Siri, you can enjoy your music with unmatched sound fidelity.

Make Your Audio **Smart**

WiiM Mini
Audio Streamer

The WiiM Mini is the ultimate audio streamer, offering AirPlay 2, DLNA, Spotify Connect, TIDAL Connect, Hi-Res lossless audio, Alexa integration, and multiroom audio support. It transforms your existing stereo setup into a smart system, giving you full control over your music from multiple sources.

- **AirPlay 2 Receiver** - Stream music from iOS and Mac devices or transmit Apple TV audio, elevating your audio experience effortlessly. Upgrade conveniently and affordably to an AirPlay 2 receiver.

- **Hi-Res Sound Quality** - Diverging from the norm of resampling to set sample rate and bit depth, WiiM Mini stands out by delivering unaltered audio up to 192kHz, 24-bit via its digital and analog outputs.

- **Works with Alexa & Siri** - Experience the convenience of using WiiM Mini with both Alexa and Siri Voice Assistants.

- **Seamless Multiroom Streaming** - Enjoy seamless integration with a range of smart speakers, such as AirPlay 2, Amazon Alexa, and our exclusive multiroom feature. Effortlessly form groups with other AirPlay 2 or Alexa devices like Echo and HomePod, or connect multiple WiiM devices for synchronized playback across various audio devices simultaneously.
WiiM CI MOD A80
Amplifier + Audio Streamer for Custom Installation

Introducing the WiiM CI MOD A80, a state-of-the-art home audio system meticulously crafted for the Custom Installation (CI) industry. This revolutionary amplifier boasts an impressive array of features, including HDMI ARC and subwoofer-out functionalities, all housed in a sleek, rack-mountable design tailored to meet the demands of modern integrators.

Immerse yourself in unparalleled audio quality with the integration of the ESS ES9038Q2M DAC and TI TPA3255 Class-D Amplifier. These advanced components ensure that every detail of your music is reproduced with unparalleled precision and clarity, setting a new standard in sound perception.

Embark on a sonic journey beyond traditional audio quality with the CI MOD A80. This versatile all-in-one device seamlessly combines streamer and speaker amplifier functionalities, effortlessly enhancing the performance of your existing passive speakers, whether they're bookshelf, ceiling, or floor-standing speakers. Additionally, its seamless integration with turntables, MP3 players, TVs, or projectors elevates the audio experience across all your devices.

Our meticulously crafted rack-mounted solutions deliver space-saving yet seamless audio streaming for custom installations, ensuring your entertainment setup remains elegant and efficient. Discover a new era of innovation and excellence in custom installation audio solutions with the WiiM CI MOD A80.

Designed to redefine your audio experience, the WiiM Amp combines power, versatility, and simplicity like never before. Whether you're an audiophile or a home theater enthusiast, WiiM Amp delivers exceptional sound quality, reliable connectivity, and intuitive control. With support for streaming services, voice assistants, and automatic software updates, it's the amplifier that keeps getting smarter. Elevate your audio experience with WiiM Amp and unlock a world of immersive sound tailored to your preferences.

Elevate your passive speakers with the smart amplification capabilities of WiiM Amp, delivering high-fidelity, gapless music and enhanced TV audio, all encapsulated within the exceptional innovation of WiiM.

Hi-Res
AUDIO
WiiM CI MOD S
Audio Streamer for Custom Installation

Introducing the WiiM CI MOD S, an avant-garde lineup of streaming products meticulously tailored for the Custom Installation (CI) industry. This pioneering collection boasts exceptional features, including a trigger out, and a sleekly designed rack-mountable form factor, optimizing space usage and perfectly aligning with the needs of modern integrators.

Compatible with Apple AirPlay 2, Google Chromecast, Alexa Cast, and more, it serves as your gateway to Hi-Res streaming. Transform your current speakers and systems into intelligent hubs, effortlessly accessing your preferred music app, the WiiM Home App, or controlling it with your voice via Alexa, Google Assistant, or Siri.

Experience a new pinnacle in audio quality with the inclusion of the ESS ES9038Q2M DAC, a hallmark in digital-to-analog conversion technology. This top-tier component ensures that every musical nuance is reproduced with unmatched precision and pristine clarity, promising an auditory journey that will redefine your perception of sound.

Prepare to embark on a sonic adventure that transcends the confines of traditional audio quality with the WiiM CI MOD S – where innovation seamlessly converges with excellence in custom installation audio solutions.

WiiM Voice Remote

WiiM Voice Remote
Remote Control

WiiM Voice Remote for all WiiM products with Push-to-Talk and Four Music Preset Buttons

- **Upgrade your listening experience** - Use the remote with your voice to search and control via Alexa (No extra Alexa built-in device needed). Note: To use the Voice Remote with your WiiM products, you will need to pair it via the WiiM Home app.

- **Easy to set up** - Open the WiiM Home App and easily pair it with any of your WiiM Mini or Pro devices.

- **One button Control** - Use the remote to play or pause, skip to the previous or next song, control volume, mute audio, and launch your preset favorite song, radio station, podcast, or anything else with one button.

- **Four customizable preset buttons** - Use them as your favorite music presets, or customize them for other device control actions.

WiiM Home App
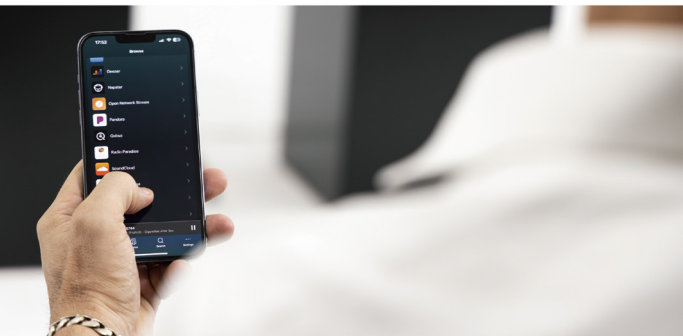

All your favorite content in one app

With the WiiM Home app, you can easily browse all your favorite music services without jumping around to different apps. We support many top music streaming services like Spotify, iHeartRadio, Tidal, Amazon Music, Qobuz Napster, Deezer, & more to come.

Synchronize audio with multi-room audio or stereo pairing

Want a whole-house sound system without any wires? No problem.Connect your device to our WiiM devices and create a synchronized audio experience

Device and content control in one app

Now it's more convenient than ever to control your device and music in one app. In the WiiM Home app, find all your favorite music services, control the device EQ, set up alarms, synchronize music to multiple devices, create personalized routines, create, and more.
